Dear Mr. O'Brien:

Thank you for the opportunity to review and comment on the Region 35 NPSPAC Plan. You and your committee are to be congratulated, for a job well done.

I am especially delighted to note your section 8.0 which recognizes the problems the State of Washington may encounter due to our boundary with Canada. This section clearly identifies the need for close coordination and cooperation between Region 35 and Region 43.

We in Region 43 look forward to the early approval of your excellent plan so we may jointly begin our operational planning for radio operations along our border region.

Sincerely,

Dear Mr. O'Brien:

Congratulations on your Plan! I have carefully reviewed the channel assignments, and they compliment the Northern California assignments very well. The Plan, as written, will provide a good base for future communications between your Zone III along the California northern border and the California counties in that area.

On behalf of the Northern California NPSPAC group I concur with the Plan. I'm sure we are in mutual agreement that all of our 800 Regional Plans are not intended as final documents, rather as planning guides, and that revisions will be necessary from time to time as systems are implemented. We will maintain close coordination with your group, in a similar fashion to the APCO Frequency Advisor program for the other public safety frequencies. In particular, we will advise you of any changes in assignments or allocations of channels in those counties adjacent to the southern Oregon border.

Sincerely,

Art McDole, Chairman Region 6
